### A Grand Reception by the Iroquois Club.

THE COUNTY CANDIDATES MEET.

The Synod of the Pacific Meets in Annual Session at Pasadena. Other News.

The reception given by the Iroquois Club last night to the county candidates on the Democratic ticket was an old-time affair, which all those who were present will remember with genuine satisfaction. The reception was arranged in order that the members of the club and their friends might become acquainted with the men they are to have the pleasure of voting for next November. A not less important purpose of the gathering was that the candidates themselves might come together and encourage one another in the fight that is being waged. Several hundred good Democratic voters crowded into the well furnished hall of the Iroquois Club and overflowed into the adjoining reading-rooms and the halls without. The candidates who were present were S. A. Waldron, Seventy-sixth District Assemblyman; A. R. Street, Seventy-seventh District Assemblyman; C. E. G. White, County Auditor; George Herrmann, County Auditor; J. L. McCoy, County Coroner; Colonel O. H. Violet, City Justice, and R. J. Dominguez, Constable. An hour was spent in lively conversation. A group gathered about the piano, where Major G. W. Arbuckle presided and led in campaign and war songs. Calls were made for speeches and the candidates responded, one after another, in short speeches, expressing their devotion to the party and their confidence in a favorable result. Each man, as he rose to speak, was tendered a hearty and enthusiastic ovation. The Hon. R. F. Del Valle was then called upon and spoke for some time upon the national issues and the good work of the Democracy in this county. He endeavored to close his remarks a number of times, but was called back by vociferous cries of "Go on! Go on!" By the time he was done his audience was wrought up to a pitch of enthusiasm, which they maintained through the rest of the evening.

He was followed by Major G. W. Arbuckle, who got off some good things on the Chinese attitude of the Republican party. In response to many cries, Major H. W. Patton made a short speech. Portland C. Hunt contrasted the attitude and record of the two parties in a brief but strong speech. F. S. Schofield and W. A. Cole gave the working men's side of the question in an effective manner, and the formal portion of the meeting came to a close. Major Arbuckle resumed his place at the piano, and everybody "joined in the chorus." Cheers were given for everybody ending with some rousing ones, which might have been heard for blocks, for Grover Cleveland and tax reduction. In the anterooms refreshments were served. Songs and impromptu speeches continued till a late hour, and the club members and visitors left the hall more than ever confident of a splendid victory in November.

The synod is called together for the purpose of supervising the general church work throughout the State and Nevada and to elect a new Moderator for the ensuing year. Dr. F. E. Shearer, D. D., who has for fifteen years been stated clerk of the synod, has charge of the proceedings and is the only permanent officer in the organization. The services opened with prayer, after which the Rev. James Curry, of Placerville, the outgoing Moderator, preached his farewell sermon, a large and attentive audience being present. This was followed by roll-call and then adjournment was taken until morning.

Those who had not arrived on the opening day began to flock in early yesterday morning, among the most prominent of the newcomers being the Rev. Dr. Irvin of New York, Secretary of the Board of Home Missions. This body spends about $30 000 a year in California and on the boundaries of Los Angeles has organized nineteen new missions during the past year. The day was devoted to business, and in the evening Dr. Irwin preached on the good work done by the missions, his remarks being very interesting. To-day will be a day of business but to-morrow nothing but the usual church services is on the programme.

The election of a Moderator resulted in the selection of the Rev. W. F. Cornelius, of Pasadena. The following gentlemen were spoken of before the voting as likely to obtain the appointment: The Rev. G. W. Lyons, of Merced; Rev. P. D. Young, of Orange; Dr. Chichester, of Los Angeles; Dr. Noble, of San Diego, and Dr. Carrier, of Santa Barbara.

Following is a list of the members of the Presbytery of Los Angeles, which has just closed.

### AMUSEMENTS.

**"Starlight's" Last Flicker at the Grand.**

Miss Jarbeau's *Starlight* will shine brightly at the Grand this afternoon in a grand matinee, and the evening performance will close the season.

**"Evangeline."**

On Monday evening the curtain will rise before a packed house assembled to see the greatest extravagance of this or any age in Rice's *Evangeline*. This statement is strictly true of the merit if the play may be measured by its popularity. And why should not that be the correct standard to measure any play by? The sale of seats has been very large, and play-goers who wish to secure eligible positions should not let grass grow under their feet. Yesterday some of the stage carpenters belonging to the company arrived from San Francisco in order to make preliminary arrangements for properly setting the piece. The scenery is all brought here from San Francisco, and the staging will be perfect. The cast is all that could be desired. Such artists as George S. Knight, Maffit, Morris, Miss Templeton and Miss Montague put this beyond question. *Evangeline* is full of pretty music. "We Must be Off," "There's a Man," "Thinking, Love of Thee," "Sammy Smug," "I Like it, Don't You," and a score of other lays, funny, sentimental, topical and touching, enliven the play.

**The Rose-Wood Company.**

*The Octoroon* as presented by the Rose-Wood Company was much enjoyed by those who, braving the rain and mud, journeyed to the Academy of Music last night. It will be presented again to-night, the popular *Hazel Kirke* being revived for to-day's matinee.

**A Switchman Hurt.**

A switchman named B. E. Warnock, was struck by a train and seriously injured in the Southern Pacific yards this morning. Owing to the fact that it was near the hour of going to press when the news arrived, no particulars could be obtained.

## THE PHILHARMONIC CONCERT.

**It Scores Another Success in the Musical World.**

The rain of last evening interfered somewhat with the attendance at the special concert of the Philharmonic Society, but Turnverein Hall was fairly well filled, about four hundred of the most musical people of the city being present. The numbers on the programme were the same as those given at the concert last week, and the Society deserves the greatest praise for the good it has done in giving to the citizens of Los Angeles a chance to hear and enjoy the same music as is presented in similar form in New York and in Europe. It was considered doubtful when this society was organized as to whether it would be a success, but the two concerts it has given has established its success beyond a doubt. The introduction of an orchestra as a part of the Society was unprecedented on the Coast. The Loring Club of San Francisco, which is the oldest organization on the Coast of a similar nature, gives three of its concerts each year without an orchestra, and for its fourth concert it employs one of perhaps thirty pieces. The Philharmonic already has an orchestra numbering fifty pieces, and its excellent work last night astonished those who were present, who had not imagined that Los Angeles could produce anything so excellent in practice. The chorus which numbered nearly a hundred sang much more perfectly than could have been expected. Miss K. W. Kimball, who sang the solo parts in Mendelssohn's *Loreley*, possesses an excellent voice which stood the test imposed by the difficult score wonderfully well. Miss Kimball comes to Los Angeles from Boston, and is a decided acquisition to the Los Angeles musical talent. Prof. Bornemann has a fine voice which showed to advantage in the "Hail Bright Abode" of Wagner. The musical success of this society is due to Mr. Willhartitz, its efficient leader. He handles the baton in a manner equaled by few in the United States.

The society will start immediately to prepare for its concert to be given at Christmas and at this Mendelssohn's "Hymn of Praise" will be given. This composition was given last week in San Francisco by the Handel and Haydn Society and it created quite a sensation. Entry to the chorus and orchestra is still open for those who desire and applicants should visit Mr. Willhartitz at his office in the Ramona Block on Wednesday afternoon.

## THE W. C. T. U.

**The Closing Session of This Organization.**

Yesterday morning's session of the Women's Christian Temperance Union was called to order by the President Mrs. Lucy Drew More. Devotional exercises were conducted by Mrs. Lewis Wright of Pomona; the journal of the previous afternoon was read and approved together with the minutes of Wednesday's 1 o'clock session; a continuation of election resulted in the election of Mrs. Mary E. Garbutt for Vice-President of the State; Mrs. Anna L. McIntosh, Corresponding-Secretary; Mrs. Lizzie H. Mills of El Modena, Recording-Secretary; Mrs. Anna T. Armor of Los Angeles, Treasurer. The reports of the different Superintendents of Departments showed great gain over last year, especially was this the case with the foreign work. The Superintendent of Press Work, Mrs. S. E. A. Higgins of Santa Barbara, said the Women's Christian Temperance Union was generally asked to occupy space in local papers except during the campaign and that each state should have its own official organ. In the Department of Soldiers the hospital work had been looked after closely, Dr. Dozier, the presiding physician, was given much credit for his help. Juvenile work was reported upon by Mrs. Lucy S. Blanchard, who in connection with it gave a most interesting account of her own Band of Hope work in Los Angeles. Within the year her band has given nineteen Demorest medal contests, winning seventeen silver and two gold medals.

On motion it was decided that the next annual meeting of the Southern California W. L. T. U. will meet in the Temperance Temple in Los Angeles.

In the evening there was a platform meeting. The principal address was from Mrs. E. J. Davis, of Riverside, on the subject of "Prohibition." Miss Florence Dunham, the State Superintendent of Y. W. W., presented a banner to the union doing the most work in the course of a year.

The executive council meets again this morning, but the convention concluded with yesterday's session.

**Reception to Rev. Dr. Mackenzie.**

The Caledonian Club gave a reception to Dr. Mackenzie last evening. There was a crowded attendance. A large number of those present had enjoyed the Dr.'s acquaintance and ministrations in San Francisco and received him with great cordiallity, while those who met him for the first time were charmed with him. McGregor McDonald, the piper, M. D. Bell and Robbie Burns were in full Highland costume. Dr. Mackenzie leaves to-night at 10 o'clock for Fresno, where he will dedicate the new Presbyterian Church next Sunday and deliver his celebrated lecture on "Husbands" the following Monday evening for the benefit of the new church. His many friends regret that his stay in Los Angeles was so short.

**She Was Mistaken.**

Mrs. Wilson, of the Horse-Shoe Restaurant, called at this office last night and said that in the item given to a HERALD man relative to her transactions with a Republican organization she was mistaken in the name of the club. It was not the Oro Fino but the organization that put up the tent on the corner of Second and Fort streets.

**Clear on the Deserts.**

Passengers east-bound last night were a little timid in boarding the train, lest there should be washouts in Arizona. The gloominess of the atmosphere did not extend far south, however, for a dispatch received from the deserts said, "all clear here."

**Parentage of Harrison.**

EDITORS HERALD—Interested parties are inquiring in regard to the immediate ancestry of Gen. Harrison (the Republican candidate for President). Did he have any father and mother like other folks? It has been customary in times past to have all the Republican candidates for the Presidency represented as "thoroughbreds," from pure blooded stock. Fathers and mothers have been brought to the surface in elegant style. But, in the present instance, we hear little or nothing of the candidate's immediate parentage. All we hear and can possibly know of Harrison's pedigree is in regard to his grandfather, "Old Tippecanoe." Now, we would like to inquire of those acquainted with his personal history, whether the present Republican candidate, in reality, had any immediate parentage? Or whether, by waving the monotony of the regular course of nature, he was a son of his grandfather direct? DR. POTTER.

**Tammany Hall.**

On Thursday evening a Democratic organization, to be known as "Tammany Hall," was formed at No. 4 Franklin street. It is composed of good active workers and they propose on election day to have six men, working in the interest of the party in each of the thirty-seven precincts of the city. Mr. Tom Keefe is President and Mr. C. Marsh Treasurer, and all interested are earnest in the good cause. A meeting is to be held next Wednesday evening to complete organization, at the County Committee Rooms. About 220 names are on the roll of the new organization already.

**Honorable Stephen White.**

The above named distinguished Democrat delivered a most logical and eloquent speech to an unusually large audience last night. No man in California is more intimately identified with the progress and success of the Democratic party than Mr. White. As a faithful advocate of its principles in the dark days when it entertained no hope of national triumph he endeared himself to a constituency that has continued to regard him as the "rose and expectancy of the fair State." As President of the Senate, he added new lustre to his fame as an orator and statesman, while as temporary Chairman of the last Democratic National Convention his famous speech of acceptance brought him permanently forward as a candidate for the Vice-Presidency of that body. The speech last night was in every way worthy of the man and is the best so far that has been made in Fresno.—[Fresno Democrat.

## A FRENCH BARON'S LUCK.

**A Guatemalan Invests Two Dollars and Now Has Thirty Thousand.**

The assertion has frequently been made that only the poor invest in lottery tickets. A case which came to the observation of an *Examiner* reporter, however, disproves this insinuation.

It is a rather odd story, the one which comes from the semi-wilds of republican Guatemala.

A Baron of France, who emigrated to this portion of Central America shortly after the Franco-German war had terminated so fatally for his country, instead of posing as a gentleman too proud to soil his hands with labor, made the best of his circumstances.

He was in a strange land without funds or friends; the latter, however, he soon secured, for he was industrious, and after working for several years as an overseer upon the plantation of a native planter, he married the planter's daughter and in due time became a planter himself.

His father had, in the day of Louis Philippe, been a director in the Royal French Lottery, so that when the Louisiana State Lottery Company established an agency in his adopted country he patronized it. His investments, however, did not prove very remunerative until the June drawing, when Baron Blank, as usual, made his visit to town, and, paying two American dollars, received in exchange one of those white-green-blue slips of paper, which has a number printed in black across the face of it. The document was taken home, and le Baron thought nothing more of the circumstance until one day, when he was surprised at receiving a communication from the agents from whom the ticket had been bought, notifying him to see them at once. The communication rather upset him. Had Dame Fortune at last smiled on him? Had he finally been rewarded for innumerable disappointments? These and many other questions suggested themselves to him, as he hastened to keep the appointment. The truth was soon learned, Baron Blank had bought ticket 90,443, which had won one-tenth of the capital prize of $300,000.

The ticket was sent to Kuhlman, Salz & Co., the leather merchants of this city, who represent the Central American firm where it had been bought. The money was collected through the Anglo-Nevada Bank of San Francisco, and by this time the lucky Frenchman is now in full possession of his $30,000, which he secured by an investment of two dollars.—[San Francisco (Cal.) Examiner, August 5.

## CITY SUPPLIES.

**Some of the Things the "Times" Failed to Publish.**

An article in the *Times* yesterday morning headed "Inestimable Transactions," accuses Councilmen Collins, Moriarty and Cohn, with having violated a provision of the Charter, in selling goods to the city, and states the law as follows: "The Charter expressly provides that no member of the Council shall, either directly or indirectly, be interested in any contract with the city, or shall vote on any subject in which he is personally interested."

The *Times* reporter, in writing about this subject, evidently forgot to look at the City Charter, the provision of which in relation to this matter reads as follows:

"The Mayor and members of the Council, as also all other city officers, either elected or appointed, according to the provisions of this Act, are hereby prohibited from being directly or indirectly interested in any contract made by said Council, or in any pay for work done under their supervision."

The Councilmen hold that there is nothing said in this section with reference to the sale of goods to the city that are not sold under contract. The only contract upon the minutes of the City Clerk in which a Councilman has been interested was that of the Los Angeles Storage and Commission Company to furnish the city with 500 barrels of cement valued at $5 per barrel. This contract was awarded by the City Council on September 26, 1887, and the directory of the city says that Councilman H. Hiller is the President of the Los Angeles Storage and Commission Company. The *Times* reporter did not find this contract in its search nor did he find the bills of Councilman Lovell under date of March 18th, 1887, May 1st of the same year and July 1st. These bills aggregate $518.05 for groceries furnished to the Pest House from February 18th to June 28th, but they differ slightly from the bills of the Councilmen whom the *Times* reporter called to task whose names appear in full on their bills. The bill of March 18th was made on Mr. Lovell's blanks, but Mr. Lovell's name is scratched over and the name of George Henck is written in place of it in Mr. Lovell's handwriting. The endorsement on the back of this bill was first "Bill of John Lovell," but the name was scratched and the name of Henck was substituted in lead pencil. The Finance Committee, composed of J. Frankenfield and E. W. Jones approved this bill. The bill dated May 1st was attached to a bill of Simmons & Son, a wood and coal firm, and at the bottom of Mr. Lovell's bill are the words, "Draw warrant in favor of Simmons & son." On the bill of July 1st Mr. Lovell's name was scratched and the name of George Henck inserted. Another bill of the same date was similarly treated. These are some of the things which the *Times* reporter failed to find.

## THE COLTON FLYER.

**The Time-Card Arranged — More About the New Depot.**

Colonel A. B. Hotchkiss returned yesterday from San Francisco, where he has been about a week. He says that he had a chat with General Superintendent Fillmore about the Colton fast train. That gentleman said that the "flyer" will be put on as soon as the motor road between Riverside and Colton is completed, which will probably be within the next Thirty days. This will bring the people in from San Bernardino and Riverside and land them in Colton so as to connect with the express service. The trip between Los Angeles and Colton is to be made in one hour and twenty-five minutes and the train will leave Colton at 8:20 A. M. Only three stops will be made en route, at Pomona, Ontario and at Spadra for water, and returning the train will leave the city at 4 P. M. A special locomotive with big drivers is being built in the East and will be ready for shipment soon.

The officials here were hard at work yesterday arranging the time-card for the new train, and the following is the schedule they drew up, showing the number of minutes it will take to reach the stations en route: Los Angeles 0, Aurant 6, Shorb 11, Alhambra 14, San Gabriel 19, East San Gabriel 20, Savanna 24, Monte 26, Punte 35, Lemon 42, Spadra 46, Pomona 51, Ontario 61, Cucamonga 61, Sainsevain 72, Colton 85. In connection with this the Banning train will leave at 7 A. M. instead of 6 A. M. as at present, and returning from this city will arrive at 7 P. M. instead of at 8 P. M. The fast train will run through to Banning, but below Colton will only make local time.

THE WOLFSKILL DEPOT.

Regarding the Wolfskill depot Colonel Hotchkiss says that the right-of-way difficulties are the cause of the delay in opening the new structure. Suit for condemnation has been entered in the case of the Briswalter estate, though this will necessarily be some time before it is heard, as the courts are crowded with business. In the interim a tract of land further down is offered where, by switching back, the traffic could be carried on, though this is, of course, not desirable. The right-of-way across the Laguna Ranch, by which the company desires to connect with the main line at Puente, and by that route enter and leave the city, is still a stumbling-block. Suit for condemnation was commenced on the 6th of last month, but owing to the illness of the defendant's attorneys the case was continued indefinitely. This matter, of course, would not prevent the opening of the depot, though a good deal of labor and time would be lost until the new route is opened, inasmuch as Easterbound overland trains would have to be backed up to San Fernando street so as to connect with the main line there.

**University Place.**

A polyglot club is in process of formation in the University, several gentlemen in the city being interested in the enterprise. The study of modern European languages in a country so cosmopolitan as this is of great importance. While it is true that the English language will "take the world," yet such is the vast influx of Europeans to this country that a knowledge of French, German, Spanish, etc., is almost indispensible to persons of wide intercourse. This club, when fully organized, will doubtless be instrumental in leading to this desirable end.

While Mr. Carter, connected with the extensive nursery of Milton Thomas on Jefferson street, and wife were visiting at his father's in one of the New England States, the house was struck by lightning, shivering one-half of the house into kindling wood. Several of the family were severely stunned, one sister having been thought dead for hours. Strange to say, she fully recovered in a few days. Fortunately, Mr. Carter and wife were away at the time. Their return after an absence of four months, was an occasion of much joy.

The opening of the art school at the University occurred on Thursday last. Miss White's exhibition of her work was greatly admired, and she will doubtless find her large and beautiful room well filled with pupils.

## A PRIMITIVE PLACE.

**Capt. Mellon's Expenses at San Felipe.**

Capt. Mellon of the Colorado River Steamship Company was in town on a brief visit yesterday. He has just returned from a trip to San Felipe, 210 miles below Yuma and 45 miles below Fort Yeabel where he has been looking for a good place to take his excursion party next November. It is the first time he has been there in eighteen years, and as an instance of the primitiveness of the place he stated that one of his Indians enticed birds with crumbs close enough to lay his hands on them. There are windows of shells there and twenty feet deep and the only objectionable feature about the place is that it is apparently a favorite randezvous for sharks which were so thick thereabouts that it was impossible to go in bathing. The party killed one which on being measured proved to be eight feet long.

**June Thompson's Case.**

The case of June Thompson, the pretty 15-year-old girl who is said to be drifting into evil ways, came up before Justice Austin yesterday and was continued until next Wednesday at 4 P. M. June appears in court as the result of an effort on the part of Mrs. Watson to get her taken away from her invalid mother and put in charge of some competent institution. The court held a private conference with June and her lawyer and it was agreed to continue the case in order that arrangements might be made to send the girl to some convent or school without any exercise of the authority of law. She went off looking very happy at her release from the guardianship of Mrs. Watson.

**Chinese Lepers.**

Two Chinese lepers are said to be living among the willows back of Date street. A short time ago there were four of them, and it is believed that two were Burked by members of their own race, who are accustomed to use this method of protecting themselves from the spread of the disease. It is also said that these two lepers have been wandering about the streets of Chinatown at various times of the day and night. Dr. Orme of the State Board of Health, said that if the cases were there he knew nothing of it, as he had been given to understand they had all disappeared.

**A Bucking Bronco.**

A serious runaway occurred yesterday afternoon on the river front. A two-horse buggy occupied by two gentlemen was being driven across the Buena Vista-street bridge, and on nearing this side the horse got restive and began to buck. He finally upset the vehicle, seriously injuring the travelers, one of whom had his head badly hurt and also sustained a severe wound in the leg. The horse broke free from his moorings and went off at full speed along San Fernando street, where he was finally captured.

**Fourth Ward Democratic Rally.**

To-night at 8 o'clock the Fourth Ward Democratic Club will assemble and be addressed by the popular speakers, Judge W. A. Ryan and W. A. Cole, Esq., at the grand stand, corner of Fifth and Wall streets. All Democrats are invited, as well as Republicans favoring the new "Senate Tariff bill." Everybody is requested to be prompt, as standing room will be difficult to get after 8 P. M.

**Mrs. Ryan's Jewelry.**

The package of jewelry which Mrs. Ryan lost while on her way to San Pedro on Thursday was recovered yesterday by the Southern Pacific detectives. It was found in possession of a Chinaman on the Nadeau Ranch, it having been carried off by him in mistake owing to the package being enveloped in a ricebag. Mrs. Ryan was highly elated when her property was handed to her.

**Pullman Passengers.**

The following Pullman passengers left yesterday for San Francisco and the East:

By the 1:15 P. M. train: Mr. Jacoby, J. Wigmore, S. H. Lafleur, M. Welch, Mrs. J. S. Nolle, W. L. Oge, H. Johnson, Mr. Willen, M. McLaughlin.

By the 10:30 P. M. train: J. H. Swift, H. Banning.

**Hereditary Insanity.**

Miss Alma Snyder, 18 years of age, was examined for insanity before Judge Gardiner yesterday and committed to Stockton. The commitment papers show that she was born in an insane asylum in Illinois, and that her mother has been in an insane asylum for four years.

## A DEATH WARRANT.

**A New Form Introduced to the Arizona Culprits.**

Many a cold, clammy corpse has ornamented an Arizona gibbet or dangled from the limb of some gallows tree, as a mute reminder of the swift and relentless retribution dealt out by the Territorial vigilantes societies, but it is said that never has a public execution taken place in the Territory other than such as occurred under the jurisdiction of Judge Lynch. The customs of modern civilization are, however, now making such inroads that the authorities are about to hang a culprit according to due form of law. No regulation death warrant having ever been issued in the Territory, the Clerk of the United States District Court of Arizona, has been obliged to send all the way to Los Angeles for a death warrant form. The same was yesterday duly expressed United States District Clerk J. H. Martin, by Clerk Edelman of the Superior Court of this county; and unless the good citizens of the Territory weary at the law's delay and relieve the Sheriff of his contract, by resorting to the old-time custom of taking the prisoner out of jail and hanging him to a limb of the nearest tree, the same blank death warrant will in due time be filled out, and a copy of it presented to the condemned culprit.

THE *Express* of yesterday evening thinks it has discovered a mare's nest in the Democratic County Central Committee. Our contemporary would do well to devote its attention to the real heart-burnings in its own camp. They are bitter and uncompromising to an unusual degree. The Colonels bold who abound in that organization have all they can do to restrain their martial ardor.

THE Republican Senate has been cruel to the Republican orators and editors, from James G. Blaine down to the redoubtable editors of the *Times* and *Tribune* of this city. A Republican proposition to reduce the revenues a cool seventy-five million dollars has started Blaine to talking about pensions instead of the tariff, and has caused the provincial brethren to fall into conniption fits of blank despair.

ONE grizzled old Democrat came into my office the other day and said he wanted to tell me something if I wouldn't tell any one his name. Said he, "Cumback, I have made up my mind to vote the Republican ticket this year. I didn't much want to vote for Cleveland in 1884, and I am tired of free trade, Civil Service Reform and the way the Democrats think about whisky."

So said ex-Governor Will Cumback of Indiana the other day. The fellow who so delivered himself must have been very "old and grizzled." Still he had some lucid intervals of thought. The man who is tired of Civil Service and who wants whisky at 25 cents a gallon ought to go over to the Republican party.

THE Republican Senate says there is a big surplus. It further acknowledges that the tariff schedule ought to be revised so as to stop the accumulation of this surplus. Ben Butterworth, a square-toed and thoroughgoing Republican says Mr. Cleveland is a patriotic, true American and laughs at roorbacks of his party, which infer that Mr. Cleveland is a traitor and has sold out his country for British gold. Then comes Chauncey Mitchell Depew and says Mr. Cleveland has given the country a sound, clean administration. Mr. Depew also states that in England the real fear as regards the United States is that the admission of raw materials free will give our manufacturers an equal chance with those of England. This is the view of a man so well informed and so honest as Mr. Gladstone. Now, in view of this little array of solid facts, where is the g. o. p. ship of State sailing? What is her reckoning?

ATTORNEY-GENERAL JOHNSON, a sound Democrat and a good lawyer, has given it as his official opinion that registration closed on October 1st. As a matter of fact, registration closed in Los Angeles county on the 2nd. Thus there seems to be a contest of opinion here. In the light of the Attorney-General's dispatch to County Clerk Dunsmoor it would appear to be a mooted question as to whether even those registered on the 2nd inst. can vote. However, we advise Democrats to keep on registering. If they can't vote this year they can vote at the next election. In the meantime, it would be a good idea to get up an agreed case to present to the Supreme Court; and if that august tribunal, in the interest of allowing qualified freemen to express their preference, should validate these later registrations, they could vote on the Clerk's certificate. The HERALD'S idea is to give the voter a show. Don't rule him out on a quibble if he is really a voter and fulfills the substantial intent of the law.

### The Democratic Outlook—State and National.

The canvass in California has improved indefinitely for the Democracy during the past week. Until recently Democratic journals which had a character to maintain for political sagacity, have been somewhat reserved in their claims as to the State of California. Nothing is easier than to claim everything, let the issue be what it might. But newspapers which expect to be published after the election, and whose guiding spirits care nothing for office, and would probably not accept an office if tendered, have some pride of opinion, and do not care to venture upon prophecies which might be largely discredited by the result.

The HERALD is of this class, and we have not hitherto cared to make sweeping vaunts. California is generally a close State, and ordinarily it has been Republican, taking the record since the war as the standard.

There are circumstances that, this year, seem to indicate a strong current which will land the State in the Cleveland and Thurman column. These are briefly:

(1.) The German vote is almost solidly Democratic this year. The local trend of the Republican party towards a sumptuary law *regime* has given us almost the entire German vote. The only election in this State in which we have had this vote heretofore was in 1882, when the Republicans had adopted a sumptuary law plank, somewhat equivalent to that of the National Republicans at Chicago this year. In 1882 the Democrats carried California by 22,000 plurality, the figure by which they elected Stoneman Governor. The situation is much the same now that it was then, and the Democrats have the great consolation of knowing that they can throw off 20,000 of that splendid plurality and yet win by 2,000. "Small favors thankfully received; large ones accordin'."

(2.) The Scott exclusion bill—a bill formulated by a Democrat familiar of the White House, passed immediately by a Democratic House and signed by a Democratic President—gives to the people of the Pacific Coast and to California particularly the result aimed at in years of popular hope and struggle. It has strengthened the Democratic party ten thousand votes in this Commonwealth in the impending struggle.

(3.) The Prohibitionists in this State, and particularly in the Southern counties, are developing a strength which they have never heretofore shown. Their leaders claim 2500 votes in this county, at least 2000 of whom will be taken from the Republican party. This is a powerful help to Cleveland and Thurman, and will probably elect the whole Democratic County ticket. Los Angeles county is specially in need of a thorough Democratic redemption, and this year it will in all likelihood get it, root and branch.

For the reasons herein enumerated The HERALD believes that the Democratic party will carry the State of California. The National contest is if possible brighter. The man who talks about any doubt or difficulty in Cleveland's carrying the State of New York is wasting his breath and shaming his intelligence. The Empire State is as certain to go for the Democratic ticket as the Aurora Borealis is to be a feature of the gorgeous natural phenomena of the Arctic region. In the union of Cleveland and Hill we have a guarantee that New York will make it merely a matter of Democratic majorities.

As to New Jersey, it is sufficient to say that that State has cast her electoral majorities for every Democratic candidate since the war except for Horace Greeley, who never was a Democrat. That she will do herself proud in the case of Grover Cleveland goes without saying when the fact is borne in mind that Cleveland himself was born in the Sweet Potato State. State pride as well as patriotism calls upon New Jersey to outdo herself. Her very Apple Jack would sour in the jugs if her citizens were to prove recreant on the present occasion. To cap all, the Prohibition candidate is also from New Jersey, and that party in that State never showed anything like the vitality it exhibits now. New Jersey will not only go Democratic but will go Democratic largely.

Thus, with New York, New Jersey and the solid South, Mr. Cleveland needs but three other electoral votes, the exhibit stands as follows:

| | |
|---|---|
| Solid South | 153 |
| New York | 36 |
| New Jersey | 9 |
| Total | 198 |
| Needed to a Choice | 201 |

To get these three electoral votes Cleveland and Thurman have Connecticut, whose six electoral votes were carried by the Democracy in 1884, Indiana, which was also carried by Cleveland in 1884, and California, which the Democracy will carry this year of grace. In addition the Democracy will probably divide the electoral votes of Michigan, and it has fighting chances in several other States.

But we will dismiss all purely conjectural figuring, and get down to the basis of common sense, with the following table, which will represent the minimum of the Democratic Presidential outlook:

FOR CLEVELAND AND THURMAN.

| | |
|---|---|
| Solid South | 153 |
| New York | 36 |
| New Jersey | 9 |
| Connecticut | 6 |
| Indiana | 15 |
| California | 8 |
| | 227 |

By this exhibit, which will only in any event be retrenched by the 15 votes of Indiana, Mr. Cleveland will be re-elected with 26 electoral votes to spare. But it will not be retrenched. It will be increased.

### Our Legislative Candidates.

No part of our local ticket is more important to elect that is the State Senator for the Thirty-Ninth District, and the Assemblymen for the Seventy-Sixth, Seventy-Seventh and Seventy-Eighth Districts. For these important positions four excellent men have been named. Hon. Victor Montgomery of Santa Ana is on the ticket for State Senator. He is a man of experience, of intellect, and of integrity. He should by all means be elected to the seat.

For seats in the Assembly our candidates are S. A. Waldron, A. R. Street and W. M. McFadden. Mr. Waldron is from The Palms; Mr. Street's residence is in this city, and Mr. McFadden belongs to lovely Placentia, near Anaheim. They are all men thoroughly equipped for the position they seek to attain to. They are intelligent, urbane, experienced gentlemen whose knowledge of affairs in all the lines of life will be of great benefit to the State in her legislative halls. The strongest sort of a fight should be made all along the line to secure their election.

### Mr. Blaine's Revolution.

The day after the Maine election last month Mr. Blaine made haste to telegraph the news that it was a "political revolution."

Here are the final official figures: Republican, 79,404; Democratic, 61,349; Labor, 1,526; Prohibition, 3,121; scattering, 15. Total vote, 145,415; Republican plurality, 18,055; majority, 13,393. At the September election in 1884 the vote was as follows: Republican, 77,779; Democratic, 58,070; Greenback-Labor, 3,147; Prohibition, 1,157; scattering, 283. Total vote, 140,436.

The Democrats have increased their vote 3,279 and the Republicans 1,625. The Republican gain as compared with the September vote of 1884, is nearly 2.1 per cent., while that of the Democrats is almost 5.7 per cent. A proportionate gain would give New York State to Cleveland by over 21,000 plurality, Indiana by over 15,000, New Jersey by about 9,000, Connecticut by 3,700, and Michigan by 3,400.

THE contest in the Sixth Congressional District is one of the most important features of the coming election. The Democrats have nominated in the person of Mr. Reel B. Terry, a young and able lawyer, who has every incentive to acquit himself creditably of this important trust. He has before him a long and honorable career, to which he will unquestionably devote his best energies. As District Attorney of Fresno county he has been a marked success. His canvass thus far has been of a character to stamp him as a rising young politician who, with opportunity, may develop into a statesman. His chance for supreme usefulness to this district is increased by the facts that the Democratic administration of our national affairs will probably be continued, while the next House of Representative will certainly be Democratic, thus giving a Democratic representative special opportunities for usefulness. His Republican opponent has thus far failed to render any notable services to his constituents, and has indeed proved to be a most lugubrious failure generally in a representative sense. This much can be justly said without assailing his personal worth which, as he has attained venerable years, we would like to see maintained at a high standard. The voters of the Sixth Congressional District, which is with one exception the largest in the United States, and which is as populous as any two other Congressional districts in the country outside of the territories that, however populous, figure as single districts, should be represented by a man in the prime of life. All the better if it can secure the services of a man in the golden flush of youth, whose pride and energies would be enlisted in making a record for himself. There is no disrespect to General Vandever in reminding the voters that he is a septuagenarian and that he is subject to the infirmities of men of such an advanced age. With the opportunity to secure the services of a young, ambitious and thorough-paced man like Reel B. Terry, bred to the law and acquainted with the needs of this district, who will be at once welcomed to the inner councils of the majority of the House of Representatives, and who will thus be so potent for good, the voters of the Sixth District ought not to hesitate for a moment. And we do not believe they will.

OUR evening contemporary contains a number of interviews with citizens of Los Angeles, concerning the new Charter, and represents them as favoring that instrument. Amongst those interviewed are Mr. J. G. Estudillo, who is understood to have placed himself on record as to the unjust apportionment. Another is Dr. Kurtz, who knows it is unjust, and who will say so if he is pressed. Five of the gentlemen interviewed, viz.: the Messrs. A. F. Mackey, T. B. Brown, Dr. Joseph Kurtz, Jose G. Estudillo and Jerry Baldwin, were members of the Board of Freeholders, and are naturally partial to their work. We need a new Charter, but a fair Charter. Democrats will vote for a new Charter substantially like the present with the unjust districting left out. Mr. Brown, in the *Express* interview, says: "I differed with my colleagues on the question of the apportionment." There was where he was right, and where he should have stood. The HERALD will support no new Charter that makes the city two-thirds Republican for all time to come. Those who desire that kind of city government can vote for the new Charter that will secure it. There is plenty of time to make a new Charter with the apportionment clause left out. Give the Democrats a chance!

ACCORDING to the telegrams the Plumed Knight has encountered an "icy temperature in Michigan," and will consequently surrender his engagements at East Saginaw and Ishpeming, in that State. This icy temperature will grow steadily, and it will be specially icy at Indianapolis about the 6th of the ensuing November. Gen. Harrison will live in a perfect palace of ice about that time, and he will be a terrible time thawing out. In addition to striking an icy meteorological current the redoubtable Pine Tree statesman has struck a cold current of thought embodying Gradgrind facts which has led him to stop talking about the tariff. The popular sentiment encountered by him on his Western trip is icier than anything the Weather Clerk can hope to develop.

### TAMMANY'S TICKET BEING MADE.

### San Francisco Democrats Put Up a Local Ticket Which Will Win.

[Associated Press Dispatches to the HERALD.]

NEW YORK, October 5.—Delegates to the Tammany County Convention met to-night and nominated a straight Tammany county ticket. The leaders were in conference all day and many messages were exchanged with the leaders of the County Democracy. Tammany submitted five names to the "Counties" as the only ones upon whom they could unite. The first two, Grant and Dugro, were rejected promptly, and finally O'Donohue and Cox were ruled out. R. P. Flower was the only one acceptable to the "Counties," and the latter asked for more time to consider the question of his nomination. Feeling that they had waited long enough, the Tammany leaders decided to select their own candidates and proceeded with the work in Convention. General John Cochrane was temporary Chairman. Resolutions were unanimously adopted pledging the support of the organization for the National and State Democratic tickets aed denouncing the reactionary principles of the Republican National and State platforms, also monopolies, aristocracies and Know-nothings. The administrations of President Cleveland and of Governor Hill were endorsed and the operations of Trusts denounced as criminal. Sheriff Grant was nominated for Mayor by acclamation. Other nominations were Jas. A. Flack, for Sheriff; Senator Edward F. Reilly, County Clerk; George H. Forster, President Board of Alderman.

### BAY CITY DEMOCRATS.

**They Nominate a City and County Ticket.**

SAN FRANCISCO, October 5.—At the Democratic City and County Convention this evening the following nominations were made: For Mayor, E. B. Pond (re-nominated); for Superior Judges, J. V. Coffey, W. H. Levy (renominated), J. T. Hoge, E. R. Garner; for State Senators, Nineteenth District, John W. Welch; Twenty-First District, J. J. Sullivan; Twenty-Third District, W. H. Williams; Twenty-Seventh District, John E. Hamill; for Assemblyman, Thirtieth District, John D. Long; Thirty-third District, W. E. Dinan; Thirty-fourth District, E. J. Reynolds; Forty-fifth District, Frank Meyers; Forty-sixth District, James Revey; Forty-seventh District, G. W. Burnett; Forty-eighth District, T. M. Rutledge. No nominations were made in the Thirty-fifth to Forty-fourth Districts inclusive. Auditor, Fleet F. Strother; Superintendent of Streets, Thos. Ashworth (both re-nominated). A Board of Supervisers was also nominated. The Convention adjourned until Monday evening to complete the ticket.

### THE BANDANA.

**It Waves All the Way to Washington.**

WHEELING, October 5.—Judge Thurman and party left Columbus quietly and until Bellaire was reached at 5 o'clock there was no attempt at a demonstration, only a few people about the different depots being aware of the Judge's arrival. However, at Bellaire, two hundred enthusiastic Democrats with band gave expression to their enthusiasm. At Benwood and Wheeling he received enthusiastic greeting. At Wheeling he made a brief speech expressing thanks for his warm reception. At Claysville a crowd cheered heartily as the train pulled through. When the train reached the Pittsburg depot a crowd was waiting to meet the distinguished Judge. After three cheers had been given for him, he thanked the crowd for his reception. Thurman then retired and a few minutes later the train started for Washington.

### HARRISON'S HUMBUGS.

**They Come to Hear the Five-Foot-Fiver's Platitudes.**

INDIANAPOLIS, Ind., October 5.—Wisconsin and Indiana were the States represented here to-day at Gen. Harrison's reception. The Indiana delegation numbered between 1300 and 1500 from Covington, Fountain City and other towns. Wisconsin voters came from Madison and Jamesville and numbered 200. They were escorted to Tomlinson's Hall. Fully 3,500 people had congregated in the hall. When Gen. Harrison walked down the stage, the audience gave him an ovation, cheering and waving of flags continued for five minutes. Benjamin Hegeler of Attica addressed the General on behalf of the Indiana delegation. R. C. Spooner spoke for the Badger State visitors. General Harrison made an appropriate response.

**The Brooklyn Democrats Edified.**

NEW YORK, October 5.—Secretary of the Interior Vilas and Congressman W. C. P. Breckenridge addressed an immense crowd to-night at the Brooklyn Academy of Music. Vilas confined his remarks mainly to comparisons of Democratic administrations since Jefferson's time with those of the other party.

**My Partner Levy in Brooklyn.**

NEW YORK, October 5.—The Republicans of Brooklyn turned out to-night in a campaign parade with about 10,000 men in line. The procession was reviewed by Hon. Levi P. Morton, Republican candidate for Vice-President.

### TALKS ON THE TARIFF.

**Here's How It Is That We Haven't Got Ships.**

Here are some facts that account for the destruction of our once magnificent merchant marine. They are condensed from the speech of Congressman W. L. Scott in the House of Representatives on May 11:

With longer coast lines than any other nation in the world, producing a greater quantity of sea-borne tonnage, if we eliminate coal, we are yet dependent upon other nations for ships to do our carrying. While England and her colonies owned 58 per cent. of the sea-going tonnage of the world, according to the returns of 1883, the proportion of the United States was 45 per cent.

The annual report of the Chief of the Bureau of Statistics for 1887, page 59, says: "There was a decline in the proportion of value of commodities carried in our vessels from 75 per cent. in 1856 to 14 per cent. in 1887. Prior to the year 1860 the ships of the world were constructed of wood, and the great sea-carrying trade of the world was done by sailing vessels. The great pineries of the State of Maine and the white oak of the swamps of Florida could not be combined into a trust. American ingenuity and enterprise were free to exert themselves in any direction that led to prosperity. In 1860 the sea-borne tonnage of the world flying the American flag was about equal that of England. We are the second if not the first maritime people in the world. At that date the relative population between England and the United States was: England, 28,730,000 and the United States, 31,440,000. According to the census of 1889 our population exceeded that of England by 15,760,000 and the relative sea-borne tonnage of the world was England 58 per cent., and the United States 45 per cent."

The wooden sailing ship was doomed in the year 1860, and the iron and steel ship, propelled by steam, was destined to supplant it upon economic grounds.

"Can it be claimed," said Mr. Scott, "that the people of this nation could not and would not have adjusted themselves to this changed condition of affairs, had not unwise legislation prevented them from doing so? What is a steel or iron ship, sir? What proportion of its cost consists of structural iron or steel beams? And how was it possible for the individual enterprise of this country to engage in the construction of iron ships when steel beams could be bought in England for $26 88 per ton, while the same beams cost in the United States 3-3 cents per pound, or $66 per ton? What has brought us to this low state? The policy of restriction.

"Under this policy, sir, cruel, barbarous, Bourbon, our magnificent foreign merchant marine has sunk into insignificance, and that seminary of dauntless sailors, that sure reserve of national defense, which once excited the admiration of Burke and of Chatham, has disappeared under the blight of your illiberal laws!"—[New York News.

**Morton and the Special Tax Bonds.**

North Carolina has a special interest in defeating the Republican ticket for President and Vice-President at the coming election. Why is this so? Because Levi P. Morton, of the firm of Morton, Bliss & Co., of Wall street, and the Radical candidate for Vice-President of the United States, is the owner of the infamous special tax bonds, so-called, issued by the carpet-baggers, and is seeking to force us to pay them through the Federal Courts. Worse than Shylock of old, he "craves the penalty and forfeit" of false bonds, even though they cost us our heart's best blood.

Conceived in sin and brought forth in iniquity, the history of these bonds is too well known to need repeating here. Suffice it to say: The people of North Carolina, laughing to scorn the claim of the carpet-baggers to pledge the faith and credit of the State to anything that was not to be enforced by Federal bayonets, repealed the laws, so-called, authorizing the issue of the bonds, and by a formal ordinance, duly ratified at the polls and incorported into the Constitution of the State, forbade them to be paid. In spite of this, however, the aforesaid Levi P. Morton, Radical candidate for Vice-President of the United States, George Bliss, Richard J. Cross and George T. Bliss, composing the firm of Morton, Bliss & Co., are seeking to have these bonds collected through the Federal Court, and in this court it will be borne in mind that Hugh Lennox Bond, a man remembered in North Carolina only to be hated, is a Circuit Judge. Morton, Bliss & Co. brought two suits, one in their own name in the State Court, which having been removed to the Federal Court was thrown out of the court because they were not citizens. The other suit was in the name of A. H. Temple, a citizen of Wake county, and the case coming on to be heard in the Federal Court, Judge Seymour, the District Judge, and the aforesaid Bond, the Circuit Judge, both being upon the bench, there was a division of opinion, Seymour being of the opinion that the State could not be sued by a citizen of its own or any other State, and Bond being of the opinion that the State could be sued by one of its own citizens. Rond being the bigger Judge, his opinion prevailed and so the case went against the State and in favor of Temple. But an appeal being allowed in such cases, one was taken by the State to the Supreme Court of the United States, where it is now pending.

Under these circumstances does any man think it prudent on the part of North Carolinians to put more power into the hands of Mr. Levi P. Morton than he now posseses? Is it wise to put a stick in your enemy's hand to break your head with?

Suppose Mr. Morton should become Vice-President and Mr. Harrison President of the United States, who knows how soon the Supreme Court of the United States will be "watered" to carry this suit in favor of Mr. Morton? The millions he would make out of it would be a big thing to re-imburse him for his present campaign expenses and to create future campaign funds for the Radical party. It will not do to say that Radical Presidents will not "water" the Supreme Court to suit their own views, for that very thing has been done, and a Radical President did it. It must be remembered, too, that during the next administration there will be an unusually large number of vacancies on the Supreme Court bench to be filled in all probability. If Harrison be President he will fill them. Think you Morton will have no influence in the matter or that he will not use it with an eye to his own interest? The man who does think so is assuredly very "green."

If, therefore, the Federal Supreme Court should agree with the Circuit Judge rather than the District Judge, and should issue the process to its Marshals, backed up by Federal bayonets, to collect these bonds, there will be a lively time in North Carolina—so lively that it is the part of the commonest prudence to do everything in our power to prevent its coming.

But perhaps our Northern brethren, and our Southern ones, too, of the Radical persuasion, think that as these bonds were written with the bayonet they should be collected with the bayonet. We don't think so.

But what a sight it would be to see a Federal Marshal, backed up by a lot of blue-coated Federal soldiers, selling the mules and plows of the men, and the bread-trays and cooking utensils of the women to get money to pay Mr. Vice-President Morton his accursed special tax bonds! Would there be much sleep of nights in the country while that sort of thing was going on, think you? We had better let Morton stay where he is.—[Exchange.

Easily kept account of: The husband stood at the door, hat in hand, and spoke with a tinge of impatience in his tone. "I am waiting, Maria," he said, "for my customary good-bye kiss." "I kissed you only a moment ago, John," replied the wife. "Why, so you did, my love," replied John, putting on his hat, "so you did." "If I smoked as nasty a pipe as you did," said Maria, "you would have no difficulty in remembering my kisses."—[Chicago Tribune.

**TRANSCONTINENTAL ROADS.**

**A Fight About Interstate Tariff Rates.**

CHICAGO, October 5.—Merchants constituting the membership of the Chicago Freight Bureau have not abandoned their proposed fight on the Transcontinental roads in consequence of discriminating freight rates on Pacific Coast business. Chairman Leeds has called a meeting of the Transcontinental Association for the 15th inst., presumably for the purpose of considered the situation, with a view to applying the necessary remedy whatever the tariff does not strictly comply with the provisions of the Inter-State Commerce law. No further actions will be taken by the Chicago shippers until after the meeting has been held, and everything will depend upon the action of the Association at that time.

**CHICAGO STREET CARS.**

All the North Side employees, 550 in number, will strike at 7 to-morrow. Interviews to-night with representatives of the 850 employees on the West Side, show that they will strike probably before to-morrow night in order to cripple, if possible, the entire Yerkes system and bring him to time.

**CONGRESS.**

**The Nicaragua Canal Question Before the House.**

WASHINGTON, October 5.—The House proceeded to the consideration of private business.

The point of no quorum was raised against the first bill called up, and for three-quarters of an hour business was at a standstill; however, a motion was agreed to for adjournment to-day until Monday. Then the wheels of legislation revolved without friction until Kilgore, of Texas, called up the House bill to incorporate the Maritime Canal Company of Nicaragua. There were five objections and under the rules the bill could not be placed before the House.

Several private bills having next been disposed of in Committee of the Whole, McRae of Kansas called up the Senate bill to incorporate the Maritime Canal Company of Nicaragua.

Culbertson, of Texas, offered an amendment providing that nothing in this act shall be held or construed in any manner to involve the United States in any pecuniary obligation whatever, other than in respect to the payment of tolls.

Phelan, of Tennessee, offered an amendment providing that the canal shall be under control and protection of the United States, in order that the representatives of all the North and South American people may be guarded against any infringement or aggression on the part of foreign nations; also that the tolls shall be equal on the same class of tonnage for vessels of all nations, except as provided in Article 54 of the concessions and decrees of the Republic of Nicaragua Canal Association of New York; also that the United States Government binds itself to protect all the rights of citizens by said concessions, and decrees and guarantees the neutrality of said canal and its operations under the terms of said concessions and decrees, subject to the consent and approval, by treaty or otherwise, of the countries through which the canal may be construcied.

Culbertson opposed Phelan's amendments; if they were adopted, said he, the Government would have to keep a standing army in Nicaragua to protect the rights of the corporation.

Phelan replied that the gentleman radically misapprehended the terms of the amendments. They were drawn for the purpose of preventing the result which the gentleman was apprehensive might ensue. They had been drawn in careful conformity of the utterances of the State Department from Grant's administration to the present time.

Fuller, of Iowa, said he did not intend to permit the bill to go through without a quorum.

Phelan, in order not to imperil the passage of the bill, withdrew his amendments and the Culbertson amendment was agreed to. The bill being in committee of the whole, the question was put of reporting the bill favorably to the House. The vote resulted, 33 to 6, and Fuller made the point of no quorum. The Committee then rose and the House took a recess until evening.

The House at the evening session passed twenty-seven private pension bills and adjourned.

**Miles Finley Acquitted.**

VIRGINIA, Nev., October 5.—The second trial of Miles Finley, charged with the murder of David Pyne in May last resulted in an acquittal to-day.

**THE ELECRIC ROAD.**

**It Will be Greatly Improved Shortly.**

There was a story on the street yesterday to the effect that the electric road was about to suspend its operations. This rumor seemed so serious to a HERALD reporter that he found Colonel C. H. Howland and asked him if the tale were true.

"No," said the plucky promoter of the road, "it is not true. The road will not stop. On the contrary, in a very short time I will have the road perfectly equipped, and will run cars every ten minutes out from each terminus of the road."

This news will be read with a great deal of satisfaction by the people who live along the line of the road.

**Colonel Ayers' Speech.**

The speech of Colonel Ayers last night, was a masterly presentation of both the Chinese and tariff issues. As we promised, the Colonel laid bare these questions to the core with incisive and logical touch. The hurricanes of applause and the enthusiastic cheers which punctuated his brilliantly, eloquent and strongly logical address were a meet tribute to the talent, the scholarship and the glowing diction and faultless style of the orator. We regret greatly that, for want of space consequent upon the necessity of reporting the proceedings of the Convention, we are unable to give at least a good synopsis of the strong, convincing and unanswerable argument made by Colonel Ayers last night, and so enthusiastically received by the immense audience which he entertained and instructed. —[San Bernardino Courier.

**Good Words.**

The Los Angeles Daily HERALD, the staunch Democratic and thorough newspaper, entered on its sixteenth year yesterday and is still doing well. Always persistently positive in its political productions, careful and more than generally correct in its local and State news, no paper or publication has done more for the upbuilding of Los Angeles and the general advancement of Southern California. It has been successful in avoiding personal controversies and in making money for its owners, as well as exerting an influence in all parties for the general good. A long life to Ayers, Lynch and the HERALD.—[Riverside Enterprise.

**The Medicos.**

The Los Angeles County Medical Society met last evening at the Hollenbeck Hotel and listened to a paper on "Intubation" by Dr. Hitchcock. This was listened to with great interest and was followed by a general discussion.

"All the presents you have ever given me, Mr. Sampson," said the haughty girl, "will be returned to you to-morrow, save, of course, the caramels and ice cream. Would that I could return them too." "You need not worry about the caramels and ice cream, Miss Smith," he returned with equal hauteur, "My share of the responsibility for the broken arm chair will balance the cost of them." —[New York Sun.

HOLLYWOOD!

The beautiful foothill suburb of Los Angeles at Cahuenga Pass is higher than the highest point in the city. This most lovely spot is situated six miles west of Los Angeles in the frostless belt. It possesses the finest soil in the world—nothing equal to it elsewhere. It will grow successfully the most delicate flower or tender plant in midwinter, without irrigation; in fact, we never irrigate this foothill land. It does not require it. It is a very healthy location. No malaria, but little fog, pure, unmolested ocean breeze every day in the year. Pure, soft water. Therefore no more healthy location can be found anywhere. Fine view of ocean vessels, city, valley and mountain. We defy competition in all of the advantages that go to make A DESIRABLE SPOT FOR A HOME! It cannot be beat. Yes, it cannot be equaled. I know this is saying a great deal. I am willing to stake my reputation on what I say. I am residing at Hollywood, and intend to make it our permanent home. A number of fine buildings are now being built at this point. Water is being piped. Cement sidewalks are being put down. The Cahuenga Valley Railroad is finished to this place, and six trains each way are now running on this road. See time table. This railroad is running in connection with the Second-street Cable. Half-fare tickets will be sold to persons residing at Hollywood, thus affording splendid connection with the city. The Los Angeles County Railroad will soon be completed and running to this place.

HOLLYWOOD

Is now for the first time offered for sale, at low prices and easy terms, in quantities to suit purchasers. Special inducements will be offered to persons making valuable improvements, until a certain number of fine houses are secured. ## HERE AND THERE.

### Willing to Suffer for the Sake of the Lord.

### WHY THE SAINTS ARE CONSOLED.

**An Earthquake Felt at San Diego. A Tidal Wave at Santa Cruz. General Items.**

[Associated Press Dispatches to the HERALD.

SALT LAKE, Utah, October 5.—The Morman semi-annual Conference opened here to-day. Apostle Lorenzo Snow presided. His remarks were to the effect that it is pleasant to suffer persecution while doing the work of the Lord. He urged the work of establishing private Mormon schools with Latter Day Saints as teachers. He said the membership of the church was increasing rapidly. Lorenzo is one of the famous polygamy converts. Elder Jacob Gates said as the prophets of old broke down the prison walls, so the power of the priesthood of the present day would break down the prison walls. Elder Seymour B. Young said: "The more we suffer for the Gospel, the greater will be our reward."

### ROYAL ALLIES.

**Francis Joseph and Emperor William Exchange Toasts.**

VIENNA, October 4.—Prince Laobandoff, the Russian Ambassador, was not present at Emperor William's reception to-day, a fact which which taken in connection with the absence of M. Devais, is held in official circles to be significant. A banquet was given this evening in the ball-room of the Hofburg. After the fourth course Emperor Francis Joseph arose and said: "It affords me the sincerest pleasure to be permitted to welcome His Majesty, Emperor William, to our midst, and it is with a feeling of hearty, firm and indissoluble friendship for the alliance which united us for the benefit of our people that I drink to the health of our imperial guest." The monarchs then touched their glasses. Emperor William in reply said: "I return to Your Majesty sincerest thanks for your gracious words, and it affords me special pleasure to be able to do this on your name-day, and inspired by the feelings called forth by our proved and inviolable friendship, I drink to the welfare of my highly esteemed ally, the members of this House and the Austrian people.

### BLAINE'S BAZOO.

**Two of His Michigan Dates Canceled—His Bad Voice.**

DETROIT, October 5.—In consequence of a slight cold and hoarseness which developed since his speech in the open air yesterday at Adrian, Blaine determined this morning to give up his trip to East Saginaw and Ishpewing. The determination was strengthened by the reports of the icy temperature in the Northern peninsula. Blaine is at the residence of General Alger, where he will remain till Monday, when he will fill an engagement at Grand Rapids and from that point proceed to Indiana. He will arrive at Chicago about the 17th or 18th of October. There is nothing serious about his present indisposition, and the cancellation of his East Saginaw and Ishpewing dates was caused simply by a desire to husband his voice.

**Fair Election Compact.**

INDIANAPOLIS, October 5.—The following agreement which has been entered into by the Chairmen of the Republican and Democratic State Central Committees is self-explanatory:

INDIANAPOLIS, October 3.

It is hereby requested and directed that in all election precincts where the inspector is a Democrat, he shall appoint a judge and clerk to be selected by the Republicans of such precinct, and where the inspector is a Republican, he shall appoint a judge and clerk to be selected by the Democrats of the Precinct.

[Signed,] JAMES N. HUSTON,
Chairman Republican State Central Committee. CHARLES E. JEWETT,
Chairman Democratic State Central Committee.

The proposition originated with Chairman Huston. Chairman Jewett, in returning the agreement with his approval, submits a proposition to the Republican Committee, proposing the formation of a Committee composed of one hundred members, forty-five of which shall be named by the Republican Committee, and forty-five by the Democratic Committee. The business of this Committee shall be to discover and punish illegal voting and election frauds of every description, and to establish branches under like conditions in every county in the State. Chairman Jewett invites immediate consideration of this proposition by the Republican Committee.

**The Whitechapel Mystery.**

LONDON, October 5.—Sir Charles Warren, Chief of the Metropolitan Police, has decided to use bloodhounds to discover the perpetrator of the Whitechapel murders. The police place confidence in the story of George M. Dodge, a seaman, who states that in August last he met a Malay cook named Alaska in London; that Alaska told him he had been robbed of all he had by a woman of the town, and threatened that unless he found the woman and recovered his property he would kill and mutilate every Whitechapel woman he met. The police are searching everywhere for the Malay. Acting on information received in connection with the Whitechapel murders, the police have seized several houses in that section.

**A Frightful Collision.**

OSWEGO, October 5.—A frightful collision occured near Hannibal Station, on the Rome, Waterton and Ogdensberg Railroad this morning. A Lehigh passenger train collided with a wildcat train from Oswego on a curve in a deep cut. The wildcat was running fifty miles an hour, the Lehigh train forty. The locomotives were smashed into a thousand pieces, and the cars badly demolished. Of the wildcat train crew, Engineer Slattery was killed, Fireman Riley was frightfully scalded, and Conductor Moss and Brakeman Thomas badly injured. Of the Lehigh train Engineer Hatch was badly cut and scalded, Conductor Westgate and Baggageman Smith were badly hurt, the former may die.

**Robbed of Her Ear-rings.**

SACRAMENTO, October 5.—Mrs. H. Bennett encountered a foot-pad on the street last evening who approached her and threw his arm around her neck and held her firmly while he took a pair of diamond ear-rings from the lady's ears. The man then made his escape. A man named John Kennedy was arrested this morning on suspicion, but Mrs. Bennett could not positively identify him as the robber.

**Eastern Echoes.**

Judge Thurman left Columbus for Washington this morning to argue the telephone cases.

At Bridgeport, Conn., Phillip Palledoni, an Italian who murdered his brother in cold blood, June 22d, was hanged Friday morning.

The White Star steamer Germanic, which arrived at New York Friday morning from Liverpool, reports that Captain Cleadell, her commander, died of apoplexy September 28th.

The distinguished French actors, M. Coquelin and Mme. Jane Hading, arrived off Sandy Hook on the steamship Biela Friday morning from Rio de Janeiro.

Giovanni B. Dendero surrendered himself at Boston, stating that he killed a relative named Giovanni Dendero, near Genoa, Italy, for interfering in a quarrel between himself and wife.

At Cleveland, O., five workman were seriously burned by an explosion of gas in the new water works tunnel. The tunnel was lighted by electric light and an electric spark from one of the wires caused the explosion.

The New York *Mail and Express* says: One of the biggest swindling schemes worked in this city for many years has been brought to light by the disapearance of William H. Ingham, of the brokerage firm of W. H. Ingham & Co. From present indications the losses of the victims, by his speculative mania, will run well up into thousands and may aggregate $10,000.

**Sparks by Cable.**

Harry Fox, a landed proprietor of Somersetshire, and a noted ball-player, was lost while traveling in the Caucasus mountains. A party of guides are also missing.

The Czar, Czarina and Czarovitch have arrived at Yekaterinodar, the capital of the province of Kooban, in Caucasia.

Advices from Suakin state that the rebels attacked that place Friday night, but were repulsed by the British troops.

Violent storms have prevailed on the North Sea. Several fishing smacks are reported lost and portions of their crews washed overboard.

Cardinal Moran, Archbishop of Sydney, New South Wales, upon the occasion of his presentation with the freedom of the city of Dublin, declared that Australia, together with Ireland, struggles for legislative freedom.

A crowd numbering 4,000 gathered at the railway depot to greet General Boulanger on his return to Paris. The General eluded the crowd and made away unobserved.

**The Lower Bay.**

SAN DIEGO, October 5.—At a session of the Methodist Church, South, Conference, now in session here, Rev. John Wood and Rev. R. Pratt were suspended from the ministery for one year each, for refusing to serve the charges to which they had been assigned at last conference.

A man named Davis was instantly killed yesterday by a train on the National City and Otay line, between San Diego and National City. The man was standing on the track, apparently unconscious of the approaching train. The engine slowed up, but not in time, striking the man, who was thrown under the wheels and horribly mangled. It is believed he was deaf.

Two slight shocks of earthquake were felt in this city about 11 o'clock last night; no damage.

**Bay City Briefs.**

SAN FRANCISCO, October 5.—During a heavy fog to-day the schooner Elsie Iverson went ashore in Drake's Bay. She is supposed to be a total wreck. She is owned by Iverson, Johnson & Co., of this city, valued at $10,000; insurance $7,000.

Fred. Crocker states that the Southern Pacific Company has purchased the franchise and good will of the railroad which had been undertaken by Messrs. Pettibone, Thompson and Woodward, from Napa to Clear Lake. The only constructed work so far as undertaken is the grading.

**Lumber Yard Burned.**

TRUCKEE, October 5.—The lumber yard of Lewison & Smith burned Thursday night, contained two million feet of lumber. The fire originated from the spark of a locomotive. The yard is at Stanford's Siding, seven miles west of Truckee. The flames were distinctly visible from town. Everything was burned. Loss, $20,000: insurance, $10,000.

**Not Murdered.**

REDDING, Cal., October 5.—The report a few days ago regarding the murder of James Holenbeck, proves to be without foundation. His death was caused by heart disease. It is a fact, however, that the dead man's brother is the principal witness in the Stanton murder case, and that there was an organized band concerned in that murder seems to be generally conceded.

**Granger Ideas.**

TULARE, Cal., October 5.—At the State Grange to-day two resolutions were adopted. The first favors the election of United States Senators by direct vote of the people. The second favors convict labor to the extent of making the institution self-sustaining and to prepare the convicts for better citizenship when released.

HOLLENBECK BLOCK,

Cor. Second and Spring Sts., Los Angeles, Cal.

All diseases of the respiratory organs treated by the most approved medical inhalations, combined with proper constitutional remedies for the liver, stomach, blood, etc. We are also now using the Compound Oxygen treatment which has such a world-wide reputation in lung and nervous affections. Probably no system of practice ever adopted has been so universally successful as that introduced by Dr. Williams for the cure of catarrh, throat diseases, bronchitis, asthma and consumption.

CATARRH.

The term catarrh is applied to a peculiar disorder of the nostrils and adjacent parts, which prevails to an alarming extent and is productive of very serious consequences.

The most prominent and characteristic features is a morbid discharge from the head, varying in its nature at different times.

In some there is an almost constant flow of clear, acrid fluid, but oftener an offensive, purulent or muco-purulent, greenish yellow matter is secreted, which accumulates in the nostrils or drops into the throat, necessitating its frequent removal by blowing the nose or expectoration, and often by both processes. Sometimes patients feel as though their whole head was in a state of rottenness, so great is the amount of matter discharged and so fetid is its odor. The patient is greatly annoyed by the constant dropping into the throat of the morbid matter from the head, and as a recumbent position naturally favors the flow downward, his rest is frequently disturbed from this cause. Many sufferers are obliged to lie with the head very much elevated in order to sleep with some degree of comfort.

In others a tough, viscid and offensive phlegm collects behind and above the soft palate, in the passage between the throat and head, adhering to the parts with giuish tenscity. Its lodgment embarrasses respiration and creates a sensation of irritation and uneasiness in the affected locality, which gives rise to a constant and almost irresistible desire to relieve the discomfort by drawing the mucous into the throat so as to eject it by the mouth. This practice, popularly known as "hawking," is characteristic of catarrh, and proves as embarrassing to the one affected as it is disagreeable to those around him.

Again, the offensive matter hardens and deposits itself on the membrane in the shape of dry, hard concretions, which are discharged by way of the nostrils or throat in lumps or fragments of a deep green tint. In some cases these incrustations accumulate to such an extent as to form a regular plug in the nose, which obstructs breathing and produces serious discomfort. So firmly do these incrustations adhere to the point of attachment that their removal usually requires the most violent efforts; not unfrequently they have to be torn from the membrane. Occasionally a solid cast of notable size is expelled, on which there are generally traces of blood, but in some cases the cast presents a tubular appearance, being of exact shape of the nasal cavity. This condition is indicative of ulceration, which, in time, may destroy the bony structure of the nose and produce a subsequent flattening of that organ.

Cases are occasionally met with in which a thick, viscid, slimy secretion coats the membrane of the nasal cavities and then putrifies, giving rise to a stench which is really overpowering, and sufficiently fetid to poison the atmosphere of a whole room; and there are others in which all the secretions of the membrane are suspended, causing an unpleasant feeling of dryness, heat and feverishness in the head and nose—a condition popularly known as "Dry Catarrh."

The disease speedily extends to the air cavities of the bones of the forehead and face, giving rise to a distressing sensation of heavy weight or compression over the forehead, especially in the region above and between the eyes, and to a feeling of fullness, heat, irritation, soreness or pain in the nostrils near the root of the nose, as well as in the upper part of the throat, above and behind the soft palate. Sometimes there is pain obstinately fixed in some particular part, as in the temple, on the top of the head, at the back of the neck, or behind the orbits, and, occasionally, pain manifes's itself in the face of so severe a character that it is frequently mistaken for neuralgia.

The breath is always tainted and at times assumes an exceedingly fetid and sickening odor. In some cases it becomes so revoltingly offensive as to render the sufferer an object of disgust to himself as well as to others.

The nasal membrane is thickened and congested, causing the nose to be stopped up, sometimes on one side, sometimes on the other, and often on both, giving rise to a disagreeable, stuffy sensation in the head, and occasionly violent and prolonged paroxysms of sneezing.

The voice is weak, indistinct and husky, or of a nasal character, displaying a sort of sniffing quality. Oftentimes there is a continuous hoarseness and discordance. There is also a sense of irritation in the throat, and frequent attempts to clear the parts of phlegm, producing the sound "hem" more or less forcibly. In some cases patients complain of an uncomfortable feeling of fullness, or a choky sensation in the throat, and in others of a distressing and almost constant dryness, for the temporary relief of which they have to swallow frequently. Others, again, speak of a constant bad or nauseous taste in the mouth or throat.

The stomach generally suffers more or less and becomes weak and irritable; the appetite is capricious and nearly always bad in the morning. The patient is languid, unable to perform mental or physical labor with the usual facility, is nervous, depressed in spirits, at times fearful, timid, agitated and inclined to drowsiness and sleep, the memory weakened and permanent impairment seriously threatened.

The mucous membrane soon becomes morbidly sensitive to unfavorable influences, and in spite of the utmost care becomes affected from the slightest causes, so that a breath of wind upon the linings of the nose or throat becomes productive of a cold, and gives rise to serious disturbances of the respiratory organs. Thus the patient is subject to frequent and repeated colds, each attack aggravating the disease by giving it a new impulse and involving a larger extent of surface than its predecessor. In this manner the difficulty spreads from organ to organ, invading the throat, larynx, trachea and bronchial tubes, until, encroaching further and further, it reaches the finer ramifications of the bronchi, when but a slight impulse is required to send it to the lungs. Catarrh may, and often does, affect other organs in the body, especially those containing a mucous membrane, such as the stomach, bowels, kidneys, etc.

By the employment of proper inhalation in the form of medicated vapor (not steam or spray) we are able to produce immediate and direct action upon the diseased surfaces in the larynx and nasal passages, for air will find its way into the most remote and intricate cavities, where it is utterly impossible to make fluid applications. By these means every case can be cured.

Persons desiring treatment by this system of practice can use the remedies at home as well as at our office, and which will cause no inconvenience or hindrance of business whatever.

I have seen so many of these cases cured that I do not consider any case hopeless, unless both lungs are seriously involved. The inhalations aid us in dissolving the mucous and in contracting and healing the cavities, which nothing else can do with the same success. The very best references from those already cured.

CONSULTATION FREE.

Those who desire to consult with me in regard to their cases had better call at my office for consultation and examination, but if impossible to do so, can write for a copy of my Medical Treatise, containing a list of questions Address

EXCHANGE REVIEW.

New York, October 5.—The stock market was more active to-day, and while higher in the forenoon, became weak later and the advances, with something in addition, were lost. There was very little feature to the list, though usually active. Stocks were quite neglected, while the interest centered on several new speculative stocks which are now becoming prominent. The high rates for money which prevailed in London was responsible for more selling by foreigners this morning, which gave the market a ragged appearance at the opening, but there was a moderate demand from the domestic forces for stocks and the temper of the room was up.

Government bonds were dull but strong.

Petroleum opened firm at 95⅝c., but after the first sales gave way under continued hammering by the bears and closed weak at 93⅝c.

MONEY QUOTATIONS.

New York, October 5.—Money on call easy at 3 per cent bid.

Prime mercantile paper 4¾@7.

Sterling exchange dull but firm at $4.83½ for sixty day bills; $4.88 for demand.

Bar silver 94¼c.

### The Republican Vote in Maine's Fishing Towns Reduced.

PORTLAND, Me., September 13.—The following comparative statement of the vote in the fishing towns of Maine, made by M. M. Piggs, Secretary of the Democratic State Committee, shows that the fishermen themselves gave at the polls their verdict of approval of the Fishery Treaty:

| Majorities | — | 1,393 | — | 1,224 | — | 1,013 |

This includes all towns in which there are any considerable number of fishermen, except Bremen, Cranberry Isles, Matinicus, North Haven, Swan's Island, Gouldsboro, Cutler and Prescott, from which returns have not been received, but the whole number of whose votes will not exceed 1,000, and will not materially change the result. The scheduled towns in 1884 gave the Republicans a plurality of 1,393; in 1886, 1,224, and in 1888 only 1,013. The towns of St. George, Friendship and Cushing, which are perhaps more particularly fishing towns than any others in New England, show enormous relative gains for the Democratic candidates. The loss in Bucksport arose from local causes—dissatisfaction over the appointment of a Deputy Collector—and in no respect from the fishery question. The trouble in Deer Isle was similar.—[N. Y.
